

Oil-Gas-Energy Law Intelligence service

OGEL, the global Oil-Gas-Energy Law Intelligence service. OGEL focuses on recent developments in the area of oil-gas-energy law, regulation, treaties, judicial and arbitral cases, voluntary guidelines, tax and contracting, including the oil-gas-energy geopolitics – <http://www.gasandoil.com/ogel/>

With this OGEL issue we focus on the Energy Charter Treaty. We are most grateful to the ECT secretariat for having provided a substantively and technically outstanding presentation of the Energy Charter Treaty and its process in all its ramifications.

Our acknowledgements go in particular to Dr Ria Kemper, the Secretary General, Dr. Andrei Konoplyanik, its Deputy Secretary General (with an influential early role in the Energy Charter process as then Russian Deputy Minister for International Energy Relations), but also to Tim Gould, Pascal Laffont and their colleagues in the Secretariat who did the hard work to get this issue out in time for the 10th Anniversary of the ECT signing ceremony in Lisbon.

As announced in december, this is the updated issue, including more topics, more articles, news, bibliography, etc.
